Kubernetes Security

## PROFESSIONAL SUMMARY

Cybersecurity Analyst with 5+ years protecting enterprise infrastructure from advanced threats. Expert in penetration testing, threat intelligence, and security architecture. Secured systems handling \$1B+ in transactions.

## WORK EXPERIENCE

### CrowdStrike • Arlington, VA

- Detected and mitigated 500+ security incidents, preventing \$2M+ in potential losses
- Led security audits for Fortune 500 clients
- Reduced mean time to detection by 65%

### Mandiant • Alexandria, VA

- Conducted 200+ penetration tests for financial institutions
- Developed automated threat detection scripts, improving efficiency by 50%

### Booz Allen Hamilton • McLean, VA

- Implemented SIEM solutions monitoring 10K+ endpoints
- Created security training programs for 500+ employees

## EDUCATION

### M.S. Cybersecurity

#### George Washington University

Summa Cum Laude, GPA: 3.95/4.0

### B.S. Computer Science

#### Virginia Tech

Magna Cum Laude

## PROJECTS

### Threat Intelligence Platform

#### Python, Elasticsearch, Kafka, React

Built automated threat intelligence system aggregating data from 50+ sources. Reduced threat detection time by 80%.

### Security Automation Framework

#### Python, Ansible, Docker, Jenkins

Developed framework automating security scans and vulnerability assessments. Saved 20 hours/week in manual work.
